Several persons have inquired about having their house-hold furniture and personal effects transported to Poston. Under instructions which we have received, any person can have his personal property transported by the government without charge to Poston. Those pieces of furniture or other articles which he desires to use will be made available to him. The remainder will be stored in one of the warehouses here at no cost to the owner. As soon as transportation facilities are available, the Block Managers\* will be instructed to secure specific information from the\* residents of his block concerning their property. \*
